

Home Dialysis Training Questions (Peritoneal Dialysis or Home Hemodialysis)

1. At the end of training, how *confident* were you that you could safely do treatments at home?
2. How useful was your training manual for helping you learn?
3. How useful is your training manual at home, if you need to troubleshoot?
4. How did you and your care partner (if you have one) sort out who would do which tasks at home?
5. What advice would you give to someone who is just about to start home training?
